Google Summer of Code

Hi Ganesh Srinivas,

Congratulations! You have successfully passed GSoC 2017!

We hope you have enjoyed working with your organization over the last few months and will continue to work with them and make sure your code that you have worked so hard on over these last few months is integrated into their code base.

Final payments will be sent out after September 07, 2017.

Be sure to verify your shipping address, promotional materials, and t-shirt information on your profile in the next 24 hours.

Your mentor(s) provided the following feedback for you:

> We would not hesitate to recommend him for future work on this project or other projects. He showed great energy, commitment, and communication. He explained things very well. He was very good at researching new things to try, for example, VGGish embeddings. Accuracy was lower than hoped, but this can happen with machine learning projects, and this topic is a relatively new area of audio ML research. Documentation could have been better but, as with many projects, time was a factor.
